It appeared thou, it will cost the taxpayers approbable there would be no indica-proximately \$280,000 a year to fition of the action decided on until nance the continuation of the work the actual entry of the vessels into
American territorial waters.

The bill, however, will not affect
the \$300,000 bond issue voted by the

American territorial waters.

Officials of the department admitted that the apparent determination of some French and British shiptomers to bring the ship liquor ruling to a test in this way presented a puzzling question. Secretary Mellon's plan to leave Saturday for an extended trip to Europe left only a day or two in which he could study the matter with department officials.

The \$300,000 bond issue voted by the Levee Board in April. which is to bear interest at the rate of 5½ percent, or \$16,5000 a year. Bonds totaling \$1,800,000 are now outstanding.

The \$300,000 issue was purchased today by the Union Trust Co. of East St. Louis.

Representative Holten's bill was opposed in the Senate by Senator Dailey of Peoria. Pohn Flannigen.

the matter with department officials.

He began a series of conferences today on the question.

Informed that the liner Berengaria, due in New York tomorrow or
Saturday, was bringing a sealed store
of liquor, the Secretary merely replied the Treasury expected to be able to deal with the situation thus

the Associated Press.

LIBERTY, Mo., June 21.—Prema-

ture explosion of a charge of dynamite placed in the Missouri River, three miles north of Liberty, yesterday in the hope that it would dis-lodge the body of Miss Orian Johnhave committed suicide, endangered the lives of three Deputy Sheriffs. A jet, thrown into the air by the de onation, fell in a boat in which were the searchers.

Miss Johnson was formerly inatructor in art at the University of Missouri. It was revealed here by her aunt. Mrs. Orian Cave. with whom the young woman had been living, that Miss Johnson received a letter Tuesday, which she tore into bits. It is believed the letter may have had some bearing on her disperance. Miss Johnson drove in a taxicab to a place near the river. Her vanity case was found near the river bank, indicating that she might have thrown herself into the water.

## WRINKLES QUICKLY

TIRED lines, tiny crows' feet, deepwartely unnecessary! For a marvelous new cream has been discovered which smooths them away, as if by a touch of a magic wand.

This new discovery is called Domino Wrinkle Cream. It works on an entirely new principle. Most treatments merely try to conceal or cover up wrinkles. But this new treatment gets the underlying cause of wrinkles, removes it, and as it does so each line and wrinkle is gently lifted away, revealing a new smooth and wonderfully youthful complexion. Even after the first few days' use, the face appears years younger looking.

Why let unsightly lines and wrinkles by you of your youthfulness and harm, when they can now be made to sappear so easily? Songs by three artists and music re than 200 Rotarians constisecond Rotary program proadcast this week by Station K S D. From 8 o'clock until 2:30 the broadcasting was continuous and was thoroughly enjoyable through-out, according to numerous telephone calls, local and long distance, received during the evening.

Williams, baritone, Eustis, Fla., gave a recital from 8 to 8:45. Williams' voice is highly cultivated and of mellifluous richness, and he sings with true artistry. His program was varied and was chosen from among the less frequently sung ballads and arias. Three Oriental songs probably were the most artistic group of the program.

Cariton's accompanist was William S. Branch of Orlando, Fla.

The other singers were Albert Hindle, tenor, and Alan D. Waddell, baritone, both of Joliet, Ill. They sang in an interlude during the band concert by the Joliet Rotary Band. Their program was very short but theirs was a real artist performance. Both are well known singers in the vicinity of Chicago, and were heard with interest by listeners in

and around that city.

Three bands from Independence, Kan.: Joliet, Ill., and Clinton, Mo.; also played. Only the conductors of these bands are adults. The mem-bers range in age from 12 to 18 years. The Independence band was program, playing from 9 until 10 o'clock. The Joliet band played from 10:15 to 11:15, and the Clinfon boys took up the program at 11:30,

playing until 12:30.

Two of the bands closed their concerts with the "Star-Spangled Banner," and in both cases the national anthem was given with splendid leffect. The conductors of these two bands, A. R. McAlister of the Joliet band, and Richard V. Matson of the nal air. They say they ching the public to love and lag for which it stands. All three ids gave ambitious programs and the air literally rang with sweet sounds around St. Louis and wherever the radio waves from K S D car-

Makes Way of Soft Drink Stand Owner Who Sells Liquor Difficult-Screens Are Outlawed.

PENALTY FOR HAVING BREWING UTENSILS

Seller of Spirits That Poison Anyone Liable to Life Imprisonment-Police Aided in Making Raids.

The new and drastic State prohition enforcement law, passed by he last Legislature, placing addiional obstacles in the way of selling ntoxicating liquor in so-called soft drink stands, will become effective next Monday.

Of particular concern to the prorietors of a large proportion of the drink stands in St. Louis is the secion of the new law which prohibits aintaining a screen or blind which events an unobstructed view of the terior of the place from the sidealk. It was the theory of the dry bbyists that there would be less hisky and beer sold in the "soft bserved from the street.

nore than half of the 2400 salooms when prohibition became effective stands, and it is common knowledge that in a very large number of these places whisky and beer have been sold. Few of the former saloonkeepers removed the screens. Those who continue to maintain them after Monday will be guilty of a violation of the new law and will be liable to \$1000, or imprisonment for 30 days one year, for the first offense. The severity of punishment is in creased for succeeding offenses.
Screen Section of Law.

The law thus defines a soft-drink stand: "The term soft-drink stand nd construed to include and refer every place and portion thereof which is conducted what is commonly called a soda fountain, or oft-drink counter where soda wars. near-beers and other nonalco-

ol beverages are permitted to be old. This section shall not be construed to include any department tore, drug store, hotel, restaurant r other place where a soft-drink gular business."

reads: "It shall be unlawful for any person having or conducting a fined to erect, or maintain, or to olind or other article or thing, that will obstruct a free and open view, it all times and under all condions, from the sidewalk or street, running alongside or in front of such soft-drink stand, and from which patrons thereof enter the room, or place, in which such soft-drink stand is conducted."

Makes Hiding Liquor Illegal. Another provision of interest to oft-drink stand bootleggers prohibits the concealment in bace-ments or behind panels or partitions of intoxicating liquor. In several instances, policemen have raided stands and found liquor hidden in such a way that it could not be said to be in the place of business. The framers of the law expect this section to cover such

SUIT IN MATTER STILL UNDER ADVISEMENT

Circuit Judge Hall Says Case Will Be Disposed of 'Fair and Square and in Due

Slot machines of the so-called mint vending type continue to do a thriving business in the city pending a decision by Circuit Judge Hall on whether the police shall be enjoined permanently from interfering with their operation. A temporary restraining order has been in effect for one type of machine since March 3, last.

The mechanism of the machines revolves rapidly at most of the places where they are installed-more so than the slower moving legal machinery—and they draw in a rich harvest of the nickels of patrons, largely juveniles.

Virtually a monopoly has been enjoyed by the company which obtained the temporary restraining order on March 3, through its agent, Benjamin O. Cook. The case has nuances, and Judge Hall has had the-final order under advisemen since a hearing on May 11. Statement of Judge.

Judge Hall was asked by a Post-Dispatch reporter yesterday when he would announce a decision in the

persons representing civic and reconcerns, who are interested in seeing these machines put out of business," Judge Hall said, "but if a Judge has to submit to outside pressure in deciding lawsuits he ought to get off the beach. This is not only case before me, as I have more than 100 under advisement Some came ahead of this case and others after it. All will be disposed

He remarked that if slot machines are gambling devices it would be well for parents to exercise prope rol over their children and see that they do not gamble. He said he had warned his own son to refrain from playing the machines,

During the hearing before Judge Hall, Cook testified about 809 of the machines handled by his company had been installed in the city. He testified his commissions for supervising their operation totaled about

Other Types Confiscated. The restraining order does not ap-oly to other types of slot machines police. However a large number is in operation in drug stores, eigar stores, eandy shops and sa loons. They usually are surrounded by a group and when one patron goes "broke," another is ready to take up the pursuit of the fleeting chance of winning extra checks,

Many complaints have been mad by parents that their children, both boys and girls, persist in playing the machines and spending all the mon ey they can get on them. The own ers declare the machines are to sell mints, and the trade checks, when paid, are for "advertising." Fre-quently, however, the mint containers are empty. Detectives made a test recently, playing \$6.25 in nickels into a machine and receiving \$2 in trade checks. Even policemen have been seen to drop in a few

#### Calling the Doctor Promptly One Way to Avoid Severe Illness

The "flu" ban was put upon all public gatherings during that dread epidemic. Probably had everyone afflicted gone to bed and called a doctor when he began to feel badly, it rould not have been necessary to put the ban on.

Anyway, statistics of that tragedy of 1918-19 all seem t point to the fact that those who did go to bed at the first indication were the ones who weathered the attack best.

When you begin to feel badly you are in no position to even make a guess as to what is wrong with you. Saying that you will be alright, or trying to "forget" is only laughing at nature. And nature won't be laughed at. After the doctor comes, we'll give prompt service on Prescription-if you need one.

LARGE PROFITS ON FIRE INSURANCE DISCLOSED

Average Annual Missouri Earnings of Aetna 31.6 Per Cent for 5-Year Period, Hearing Reveals,

disclosing the large profits derived from Missouri business by fire insurance companies were obtained by Floyd E. Jacobs, attorney, of Kansas City, representing Insurance Super-intendent Hyde in the taking of testimony here this week before Com-Missouri insurance rate case.

The principal witness examined was F. G. Bush, representing the Aetna Insurance Co., who was crossexamined in line with Superintend-ent Hyde's statement last fall in ordering a 10 per cent reduction in rates, that the companies could show a good earning on Missouri business even on the reduction, which he estiniated would amount to \$2,000,000 a year in savings in premiums to Misuri buyers of insurance.

Aetna Company's Earnings.

In the course of the cross-exam-ination it was developed that the Aetna company in the five-year peand from 1917 to 1921 had average annual earnings on Missouri business of 31.6 per cent, the figures being based upon the premiums paid to the company and the losses paid and expenses incurred on Missouri busi-

Duplication of expenses in the an ual Underwriters' Report to Superntendent were brought out, it being shown that \$10,000 of Federal taxes were charged against Missouri busines and that the same amount again was included in the total expense alocated against Missouri business. It wa sdeveloped from Bush that

the company does a credit business in the cities while the farmers are equired to pay cash for their in-urance, from which Jacobs argued hat theer was discrimination against suarnce buyers in the rural dis ricts, it being shown that frequent premiums were not paid on the edit business until after a loss had led its credit business at great exnse which was charged in higher han necessary premiums to all poly holders without equal benefits. Reinsuring Policy Attacked.

panies in reinsuring portions of the insurance they carried also was at-tacked by Jacobs, who sought to show that reinsurance was for the convenience only of large insurers, that it meant nothing to the average insurer, but that its cost was assessed agains all.

I was charged by Jacobs and some evidence to substantiate his charge was produced that the insurance companies followed a system of acounting in showing porfit and loss by which the apparent profit was shown to be less and the apparent loss in Missouri increased.

The companies in the action deny that in fixing rates the Missouri Superintendent has the irght to take into consideration any expense oher han Underwriters' expense, while Su-perintendent Hyde insists that he has the right to consider the earnings of the companies from interest on un-

earned premium reserves.

According o the State's method of figuring the Aetna's business that company earned an average of 1,-000,000 in Missouri for the five-year

#### WHEAT CONFERENCE VOTES FOR STABILIZATION OF PRICE

Dirt Farmers Defeated on Proposa That .U. S. Buy at \$1.50 All Wheat Not Sold.

By the Associated Press.
CHICAGO, June 21.—The National Wheat Conference instituted by the Governors of seven producing states in an effort to stabilize the wheat growing industry, adjourned late last night after refusing to go on record in favor of a Government price guarantee.

After a turbulent debate which found dirt farmers aligned almost solidly for the proposal, while transrtation and business heads connected with the industry opposed it, a resolution demanding that the Gov-ernment buy at \$1.50 a bushel all weat not disposed of in regular sales, was defeated. In its stead, the resolutions committee was instructed to insert in its report the sense of the conference; "that the price of wheat should be stabilized."

The conference effected a permanent organization, to be known as the Wheat Council of America. The council will attempt to solve problems of wheat production and distri-

Farm products and chemicals and drugs averaged approximately 11/2 per cent ower, while smaller declines were terials, metals and metal products

## Dainty, lustrous, invisible yet so much longer wearing!

-MMR'S Red Seal Hair Net

accessories has a very interesting conception of the purpose a hair net fulfills.

It is, of course, a practical necessity; but to him a hair net does much more than just confine stray locks. It adds a finishing touch of beauty to the coiffure.

So it is natural that MMR's interest in this feminine accessory should lead him to effect some new and great improvements in the

Delicately fashioned, lustrous like growing hair, perfectly invisible, yet sturdy and strong, capable of longer wear!—these are the qualities in which MMR's hair net excels.

And how does MMR get this new strength, this greater wearing ability in such an essentially delicate thing?

Remember again how he regards the hair net—"the final smart touch to the hair." Only a perfectly made net can give it.

DESIGNER of | This, then, is his method-painstail of making! For example, every hair must be a certain lengthonly the longest ones are used. They are rigidly tested for color, sheen and fine texture.

> Then the mesh; MMR is very particular about this. It must be exactly spaced, at regular intervals. The knots are tied a certain way, tightly, securely.

Generous size, correct shape, MMR insists on. For only so can a hair net be perfectly adjusted to the coiffure.

Perfection of design and handiwork! These and only these give to a hair net the greater wear which MMR's net offers you.

Not only the daintiness of MMR's hair net, but its value will appeal to you. For the longer wear it gives means a saving which counts up in a year. Get a couple to try -at any drug or department store, 2 for 25c.

AND ECONOMY

Because no other tire is built the same way or made of like materials, no other tire has the wearing strength, the riding quality and the tractive power of the new Goodyear Cord Tire with the beveled All-Weather Tread.

Made of a new and longer-wearing rubber compound, the tread of this tire is now beveled at the outer edges, and the big tough blocks of this tread are reinforced at the base by heavy rubber

Every cord in the carcass of this rugged, longlasting tire is made of highest-grade long-staple cotton of extra tensile strength. The exclusive Goodyear method of group-ply

construction is employed to defeat internal fric-tion and promote long wear.

The sidewalls are built extra heavy to resist rut wear and curb wear. And the famous Goodyear All-Weather Tread provides maximum traction and safety in every kind of going.

As Goodyear Service Station Dealers we sell and recommend the new Goodyear Cords with the beveled All-Weather Tread and back them up with standard Goodyear Service

## Save MONEY, TIME and TROUBLE

Miller experts have led the world for five years in developing more mileage features!

IT requires more than good materials to make a good tire. Building in exceptional service is the result of Miller methods, expert workmanship and proper materials.

#### Geared-to-the-Road Flat Tread Cords

Miller Cord builders originated the center running strip, which is now almost universally adopted. They built the first successful flat top cord, which increases mileage and gives greater protection against slipping.

#### Balanced Supple Carcass

Now again Miller leads. This time in the production of a buoyant, supple carcass. Years of development have perfected balance and increased flexibility that give maximum strength with minimum weight.

#### Uniform Cord Construction

Another distinctive Miller improvement is positively uniform cord construction. The strain of wear is equally distributed over the entire carcass. Cords are laid on evenly. Every ply takes its equal load. That is why you can always be certain of getting full, satisfactory mileage from every Miller Cord.

Buy a Miller Geared-to-the-Road Cord and let it prove to you that these developments mean more cord service at lower cost. Authorized Miller dealers insure proper treatment.

## INTO BEEBE MURDER

Theory Is That Shooting Was in Retaliation for Killing of William Ryan Last Year.

Three women and seven men ar eing detained today in the police which he was a partner at 2308 Ben-ton street, but the only theory advanced to explain the shooting was that it was in retaliation for the faanother saloon he conducted.

An autopsy disclosed Beebe had been shot five times, in the chest and the back of the neck, indicating apparently that he was shot first while facing his assailants and ther

A Coroner's inquest was formally opened today, but was continued pending the police investigation. William Ryan, 28, of 1413 North Thirteenth street, was shot and killed in Beebe's saloon at Eighteenth and Morgan streets, Aug. 17. by city detectives who were there on routine inspection and were told by some one, probably Beebe, that Ryan, armed with a revolver, was in a rear room. The detectives reported Ryan fired several shots at them before they fired. Beebe's wife told policemen, after learning of his death, that friends of Ryan had threatened him, evidently in the belief that he was responsible fo

Ryan's Widow Among Prisoners Members of the Homicide Squad vent to a house on North Thirtcenth street and arrested a woman who had some difficulty with Beebe. Two other women and a man, whom they did not recognize, were there. Learning later that one of these women was Ryan's widow, they arrested the trio at Broadway and Mallinckrodt street at 1 a. m.

vicinity of the former Bebee saloon at Eighteenth and Morgan streets, because one of them corresponded in a general way to the description of a man seen leaving the scene of the murder. The other two men arrested are police characters. Mrs. Ryan and the others being detained deny knowledge of the crime

Louis McKinney, 2303 North Market street, told policemen that he was in the saloon at 8:30 a. m. yesterday and that two men, whom Bebee evidently knew, came in Bebeee, he said, shook hands with one of them and said, "Hello, John, how are you?" McKinney described these men as being about 30 years old and well-dressed.

Two Men Seen Fleeing. McKinney left. Ltaer neighbors heard several shots fired and saw two men run out the front door, east in Benton street and south in Twenty-third street. A policeman found Beebe dead, lying across two steps leading into a back room. A 38-cali-ber revolver, recently fired, with six empty shells, was on the floor at the front of the bar. Beebe's revolver, of the same size and make, but un-fired, was in a front showcase on the opposite side of the room. There was \$10.52 in the cash register, a \$2 bill, three empty glasses and a blinking young owl on the bar, and 16 cases believed to contain home

Very Low Summer Fares

Union Pacific

Why it pays to make sure they're Keds

A word to the public from the world's largest manufacturer of summer footwear

Millions of people buy Keds every summer. Their astonishing growth in the last decade has changed the footwear habits of the nation.

Yet some people lose money on inferior substitutes simply because they don't realize all that the name Keds means—or how to make sure of

getting Keds. So here, briefly, are the three things everyone should know about these famous summer shoes:

 Keds are made only by the United States Rubber Company—the largest rubber organization in the world. The name Keds is a registered trademark, owned exclusively by this Company.

2. Keds are a complete line of canvas rubber-soled shoes for men, women, children. Years of skill and experience have made them unique in looks and wear. Styles for the street, for the home, for sport, for general

3. On every pair of genuine Keds the name Keds appears. Always look for it before you buy.

Keds, of course, vary in price according to type. But no matter what kind of Keds you buy, every pair gives you the highest possible value at the price.

Remember—while there are other shoes that may at first glance look like Keds-no other shoe can give you real Keds value. If the name Keds isn't on the shoes they aren't real Keds.

## Cardinals Miss Easy Double Play in Ninth and Giants Score Five Runs to Win Final Game of Series

New York Wins Three Out of Four When Haines Makes Wild Throw to Second on Meusel's Grounder - Snyder's Triple Decisive Hit - Chicago Cubs Open Series Today.

By Joseph F. Holland.

Among the usual run of double plays is the one in which the pitcher fields the ball and tosses to the shortstop at second who, in turn, relays the ball to first. It is completed many times in a season and requires no particular art. Had the Cardinals been able to complete this play in the ninth has some cold sores on his lip, and inning of yesterday's final with the New York Giants, they would have bro- decided against any boxing for that in the series. They failed and thereby hangs a tale of a fine pitching exhibition wasted because of a defense that crumbled in the pinch.

New York trudged in for its haif able lead. They battled four scoreman had been retired. Ainsmith and 14 four hits in the full eight innings. Haines opened with singles. Blades shot a double to right that scored

State and District Champion to Play in Trans-Mississippi at Minneapolis.

St. Louis golfers will invade two ournament cities next week. Jimmy Manion, Richard Bockenkamp, Eddie Held and Donald Anderson will journey to Minneapolis to compete in the Transmississippi championship at the Minikahda Golf Club and B. Curran Jr., Tom Malley, Walter ossman and Fred Conway will go to Washington to play in the nation-

l public links championship. Manion is having the best season his career and will be one of the favorites in the Transmississippi vent. Jim won the district championship at Algonquin recently, defeating Clarence Wolff in the final and then he went to Kansas City and captured the Missouri State title for the third time, beating Walter Kossnan in the final.

Bockenkamp has not been on his game this spring, though he had a good day during the qualifying round and was medalist in the district tournament. Held, while not as steady as Manion, established a new course record during the district event and will eliminate some good golfers before he is put out of any competition. Experience is all he needs to make him a factor in national championships. He won the public links championship last year, but now he is a member of Algonquin and no longer eligible for the public course competition. In stocks many active issues opened a point or more high and continued to advance during an active first hour. Trading fell off somewhat and gains were shaded slightly during the ensuing two hours; but strength and activity reappeared during the entire list. Taken altogether, the events of the day suggested that the speculative fraternity had all along understood the true significance of the recent failures; that is, that they were isolated incidents which offered favorable opportunities for bear raiding. Bands were steady and call money remained at 5 per cent.

"As a result of an increase of f2.443,000 in deposit liabilities, the Bank of England's reserve ratio is a shade lower at 19 per cent. Circulation is £353,000 smaller, but there are signs that the market has borrowed from the bank, possibly in connection with recent flotations of new securities. The flood of new issues has, in fact, produced a certain amount of congestion in the London market and so resulted in liquidation similar in character to that which has occurred at times this year on this sid of the water. Changes in the Bank of France statement are relatively unimportant, extraordinary advances to the State remaining stationary."

200 Residents Near Children's Home at 4427 Margaretta Av. Dispersed After Demonstration.

The crowd was stil! there when the police arrived. The fleutenant was admitted by Mrs. Ada Woodin, the matron, who said the crowd had threatened to enter. She said that Miss Coursert, in charge of the boys, had found it necessary to punish five for infractions of rules and had used a strop, which was produced for Liety. Hickey's inspection. It was two feet long, three-quarters of an inch thick.

The boys who had been punished and Hinderleider ance off:

said the things about which the complained had been going on for a long time. The children, they said, were whipped and mistreated and were whipped and mistreated and Markwardt, East St. Louis.

scesses and Open Sores in a Few Days.

The world progresses. Today ailments that took weeks to cure can now be ended in a few days. If you have varicose veins or bunches you can start this today to bring them back to normal size, and if you are wise you will do so.

Just get an original bottle of Moone's Emerald Oil at any dispensing pharmacist and apply it night and morning to the enlarged veins. It is very powerful and penetrating, and only a little required.

After a few days' treatment the veins will begin to grow smaller and by regular use will soon reduce to normal.

One application for instance stops the itching of eczema, and a few applications causes the eruptions to dry up, scale off sand completely disappear. It is equally as effective in barbers' itch, salt rheum, redness and inflammatory skin trouble.

People who want to reduce varicose veins, wens or goitre, or get rid of eczema, ulcers, boils, abscesses or piles in a few days should not hesitate to get abottle at once. ## More for Your Money

By measuring things against each other as our grandmothers did when they swapped eggs for calico, we get the clearest idea

Coal and wages make up more than half the manufacturing cost of cement.

The chart above shows price -fluctuations for portland cement, coal and wages during the past ten years. In each case 100 is used to represent 1913 figures, by the Government departments

which compiled these statistics.

Translated into "eggs and calico" language this chart shows that a ton of coal would buy nearly twice as much cement in 1922 as in 1913. A day's wages also would buy more cement in 1922 than in 1913.

This means that even though coal and wages make up more than half its manufacturing cost, cement is now relatively lower in price than either coal or

Until 1919, Court Was 1100 Cases Behind - Appointment of Commissioners Helped Reduce Congestion

For the first time in .25 years the t. Louis Court of Appeals has vir-Presiding Judge W. H. Allen today rdered that all pending cases in which appeals have been perfected be placed on the October term dock et for argument. This will include 420 appeals, many of which were not returnable before the next term, and means that the cases will be disposed of within six months to less

than a year. There are two terms of court a year in the Court of Appeals. The October term continues through.

Until 1919 the Court of Appeals was 1100 cases behind. Consequenty a litigant could not hope to receive final decision in less than from two to three years. Then the Legis-lature authorized appointment of three Commissioners to assist the are Judges working together have a last reduced the congestion. The last session of the Legislature authorized an additional Commissioner. With the present working force it is hoped to be able to give litigants prompt service, Judge Allen said. The other judges of the court are Judges William Dee Becker and Charles H. Daues. The Commission ers are Simon G. Nipper, Theodore Bruere, Walter N. Davis and Pobert L. Sutton. The salary of the Judges and Commissioners is the same, \$6000 a year, but the commissioner does not have a vote in the court. Opinions of Commissioners are either adopted or rejected by

the three Judges. The St. Louis Court of Appeals disct comprises this city and 23 counties of the State. The court has urisdiction over cases involving sums up to \$7500 and criminal matters in which a misdemeanor i charged.

United Home Builders Want Bankruptcy Ruling Set Aside.

Hearing of a motion to set aside a Federal Court order adjudicating as bankrupt the United Home Builders of America, a housing trust, was in Federal Court today until June 29, by agreement of attorneys. The hearing had been set for tomorrow.

The housing trust was adjudged bankrupt May 3, on an admission of insolvency by a trustee of the housing trust, which now has headquarters at Portland, Ind. Receivers for the company in Missouri and Texas seek to have this order set aside, until a question of jurisdiction between the Federal Court and Texas State courts is settled.

the receivership action against the Union Home Builders, another hous-ing trust, are set for tomorrow in Federal Court. This is one of 32 lousing trusts in the State for which State Finance Commissioner Millspaugh was appointed temporary receiver on May 4, last.

Police say the lights would go far toward preventing accidents. They say both corners are poorly lighted and drivers can hardly distinguish in what direction other machines are driving. Traffic at both corners, they report, is exceptionally heavy at night and owing to the poor lights it is dangerous to station a traffic policeman there.

## Blessed Comfort at Last for Mother and Baby-

Does Basy keep you awake in the dead hours when you so need your rest? Are his wails caused by pain for which there seems to be no remedy?

use Kora Konia every time the baby's diapers are changed

Few grown-ups realize the agonies caused by chafing of wet cloths; the action on the skin of diaper acids and rancid perspiration; by slight rashes, prickly heat and other skin troubles. In time, any of these will spoil a baby's appetite and his disposition.

Kora Konia relieves and prevents skinsuffering by an entirely new principle. It comes in the form of a fluffy powder, so that you can apply it quickly and easily. Do not, however, confuse Kora Konia with "baby powders." The instant you smooth Kora Konia over the tender skin, it forms a velvety, waterproof

That film heals, soothes and cools the inflamed flesh. It also protects the skin against harsh contact with cloths and diaper acids.

Quick relief for Baby. Relief for Mother, who can rest and relax only when her baby is healthy, happy and well-fed.

use it every time the baby's diapers are changed

in leisure, as is often the case: He has not been able to get just the kind of thing he wants to do and regrets very much his thoughtless action. His father told me about him and said that the boys would have to learn his lessons, and he believes that probably he will have a little more patience when he secures his next position.

The other two times he thought he was very brave to be able "to stand up for his rights." But now he realized he "bit off his nose to spite his face."

While it is all very well to have courage and backbone, one may be somewhat foolhardy in thinking that you are displaying these two worthy qualities. While every human being wants

so to live that he is not trampled upon or treated with disrespect, yet there is such a thing in common parlance as being, "too thinskinned." You must be able to take things, and sometimes swallowing a little pride helps your position and makes you stronger in the end rather than showing too

## For Boiling, too—

this new kind of soap is perfect

"I find this new kind of soap simply wonderful for soaking. But I like to boil my clothes, too, and I wonder how it is for that."

Don't hesitate for a minute! Rinso is splendid in the boiler. Just put in enough dissolved Rinso to give you the suds you want. Of course you won't need as much as you do for soaking.

Although Rinso is a new kind of soap you don't have to change your washday methods in using it. It fits into any of your accustomed ways-whether you soak, boil, or use a washing machine.

Just use Rinso where you used to use bar soap. It is so much quicker, so much easier both on you and on your clothes.

Rinso is made by the makers of Lux-the largest soap makers in the world. It comes in two sizes—the regular size and the big new package. Get Rinso today—at grocery and department stores everywhere. Lever Bros. Co., Cambridge, Mass.

METROPOLITAN MOVIES-By GENE CARR

HE other day Montague Glass, with the assistance of a Scotch friend of his, dug this one up. It professes to offer proof of the fact that it is easy for a Scot to master the language of any other nation. As an example, it is pointed out that two members of a Highland regiment assisted in the capture of Wei-Hai-Wei during the Boxer rebellion. Immediately following the victory the Kilties addressed each other in perfect Chinese; or at any rate, the Chinese prisoners present might have been excused for thinking it was Chinese. The dialogue between them A GIFT OF TONGUES.

"What's the idea?"

as follows:

"Weel! We hae Wei-Hai-Wei!"

"Hae we?"

"Ay, we hae!"

Without any desire to take from the Scot any part of his linguistic say, I nevertheless insist that the foregoing yarn merely is a skillful raphrase of a much more ancient wheeze which was current in the ath when I was a small boy and probably in some sections down there is current.
